Contributor Program

We created the Elastic Contributor Program to recognize and reward the hard work of our awesome contributors, encourage knowledge sharing within the Elastic community, and build friendly competition around contributions.

- Organizing meetups, hackathons, events and workshops;
- Speaking at conferences or giving lectures;
- Writing articles or blog posts;
- Recording tutorials or use cases videos;
- Translating existing materials to local languages;
- Coding contributions;
- Answering technical questions on designated forums;
- Validating others contributions;

The program runs annually and the 10 highest scorers from each region (Amer, EMEA, APJ) win awesome prizes!

Learn more about the program on our [website](https://www.elastic.co/community/contributor) and invite friends to join it.
